A Supplement

Compiled by

Charles E. Shelby, Director

Regional Swine Breeding Laboratory

Swine Research Branch, AHRD, ARS, USDA

225 Kildee Hall

Ames, Iowa

10-1-66

FOREWORD

Most of the comments written for Volumes I, II, and III of the Bibliography still apply. The present volume is basically a supplement to them. Included are additional citations from new sources together with needed editorial changes. The latter are: 1) addition of A.B.A. citation, 2) inclusion of last page number in article, 3) matching of Dissertation Abstract and Thesis citations, 4) an attempt to abbreviate uniformly, and 5) correction of errors in typing, or in date of citation.

My initial supply of 400 copies of Volumes I, II, and III has been completely exhausted. Only sufficient copies of Part IV to supply the original recipients have been made.

Your comments relative to the usage or improvement of the Bibliography would be appreciated. Similarly, a list of errors found would help in preparation of the next edition.

A handwritten signature in cursive script that reads "Charles E. Shelby". The signature is written in dark ink and is positioned above the printed name and title.

Charles E. Shelby, Director
Regional Swine Breeding Laboratory
